opportunity to engage, discuss and stay informed of the learning taking place in their child's class.

2.3.2   Parent(s')/guardian(s') support of homework completion is valued in promoting the home and school partnership.

2.3.3   Reference to this homework policy in student handbooks, agendas, and other means of communication will benefit parent(s)/guardians, students, teachers and administrators.

2.4   Assessment

2.4.1   Assessment is the process of gathering, from a variety of sources, information that accurately reflects how well a student is achieving the curriculum expectations in a subject, frame or course and the learning skills and work habits.

2.4.2   Information from students' homework completion supports the ongoing process of gathering and interpreting evidence about student learning for the purpose of determining where students are in their learning, where they need to go, and how best to get there.

2.5   Evaluation

2.5.1   Evaluation is the process of judging the quality of student learning on the basis of established criteria and assigning a value to represent that quality. In Kindergarten, evaluation involves the judging and interpretation of evidence of learning to determine children's growth and learning in relation to the curriculum expectations.

2.5.2   Homework completion can be used to support final Learning Skills and Work Habits evaluation on report cards, however, the completion of homework will not be reflected in the determination of students' academic achievement.

3.   **Assignments for Evaluation**

3.1.1   Assignments for evaluation are used to evaluate student learning. Such tasks will be instructed upon by the teacher, worked on largely in class, and students will be provided with ongoing descriptive feedback.
